

Jaipur Engineering College And Research Centre

Ujjwalam

Department of Electronics and Communication Engineering

Volume 2, Issue 1
APRIL 2018

Director's Message

We are currently in the era of technology revolution, spearheaded by recent developments in engineering sciences providing sustainable solutions to various issues in different areas. The Indian engineering programs have a promising future particularly the **Electronics and Communication** sectors are on the threshold of becoming global players by 2020. Fragments of this newsletter will track different event and activities that are taking place in the department. I extend my best wishes to all those who contributed to **Ujjwalam** and I am confident that the interaction will be a source of inspiration to the young talent budding in the college, who would be the educationists, technocrats and researchers of tomorrow. They would shoulder the responsibility of bringing in the desired innovations in their fields, leading to the advancement of the country.

Mr. Arpit Agarwal
Director, JECRC

Principal's Message

Jaipur Engineering College and Research Centre (JECRC), Jaipur is recognised as one of the best technical institutes in Rajasthan and is adopting the process of change that demands quality outcome based education.

The vision of the institute is to become an institute of excellence in imparting outcome based education, providing platform to students for overall self development that includes ethics, moral values, etc. and develop research aptitude through project base learning.

In the process of implementing outcome based education (OBE) the faculty members are measuring the progress and competency of the student as they go through a course in each semester and are being accessed against pre defined package.

The campus will soon have a video server where video lectures of all under graduate and post graduate programs delivered from the professors of IIT and IISc would be made available to the students 24x7 through a high speed wifi networking. This will create ample opportunities to learn the subject at their own base on their laptops and smart phones.

All the credit goes to outstanding reputation and dedication of the institute for all these years, under the able guidance of visionary Shree Arpit Agarwal Ji, Director of JECRC ,Jaipur, we are committed to impart necessary skills and knowledge to our students in best possible manner, in good spirit and in good environment by allowing them to dream big and help them to achieve the same.

Dr. V.K. Chandna,
Principal, JECRC

Mission and Vision of the college

VISION

To become a renowned centre of outcome based learning, and work towards academic, professional, cultural and social enrichment of the lives of individuals and communities.

MISSION

- Focus on evaluation of learning outcomes and motivate students to inculcate research aptitude by project based learning.
- Identify, based on informed perception of Indian, regional and global needs, areas of focus and provide platform to gain knowledge and solutions.
- Offer opportunities for interaction between academia and industry.
- Develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions

VISION

To contribute through excellence in scientific and technical education, teaching and research in Electronics and Communication Engineering & to meet the needs of global industry.

MISSION

- To equip the students with a strong foundation of basic sciences and domain knowledge of ECE, so that they are able to creatively apply their knowledge to the solution arising in their career path.
- To induce the habit of life-long learning to enhance overall performance.
- Students are able to communicate their ideas clearly and concisely so that they can work in a team as well as an individual.
- To make students responsive towards the ethical, social, environmental and economic context for the society.

Newsletter ECE, JECRC Foundation, Vol. 2, Issue 1, April 2018

HOD'S Message

The Department of Electronics and Communication Engineering came into existence at the Jaipur Engineering College & Research Center in 2000, by the approval of All India Council for Technical Education (AICTE), to meet the growing requirement of practical design engineers in the country and abroad. The greatest asset of the department is its highly motivated and learned faculty. The available diversity of expertise of the faculty with the support of the other technical staff prepares the students to work in the global multicultural environment. The department not only aims to make our students technically sound and knowledgeable but also to nurture their wisdom and make them a better and responsible human being. The graduates of the Electronics & Communication Stream have been selected by some of the world's leading corporations & as well as by most of the leading Indian counterparts. We hope that we will continue to deliver our best to serve the society and mankind. It is also expected that our students will continue to pass on the skills which they have developed during their stay at this department to the whole of the world for a better society.

- Dr. Lokesh Kumar Bansal

Program Outcomes

PROGRAM OUTCOMES are Graduate Attributes

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

Program Outcomes

- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and ECE tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

Program Outcomes

- **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Educational Outcomes

PEO 1

- To provide students with the fundamentals of Engineering Sciences with more emphasis in **Electronics Engineering** by way of analyzing and exploiting engineering challenges

PEO 2

- To train students with good scientific and engineering knowledge so as to comprehend, analyze, design, and create novel products and solutions for the real life problems.

PEO 3

- To inculcate professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach, entrepreneurial thinking and an ability to relate engineering issues with social issues.

PEO 4

- To provide students with an academic environment aware of excellence, leadership, written ethical codes and guidelines, and the self motivated life-long learning needed for a successful professional career.

PEO 5

- To prepare students to excel in Industry and Higher education by Educating Students along with High moral values and Knowledge

Editor's Desk

It is with great pleasure that we bring to you the First issue of Volume two , **Ujjwalam**, the newsletter of ECE Department JECRC Jaipur. The name of our newsletter- **Ujjwalam**- signifies **brightness**, With faculty members that consist of bright minds and students who are keen to leave a mark, our future is in safe hands indeed.

The goal of this newsletter is to update you all with the developments at ECE department (JECRC) Jaipur. The current issue will provide the information about the various initiatives of department which are related to academics, research and innovation, student affairs and departmental laboratory / workshop. This newsletter besides reporting on the major events will also report on laurels earned by our faculty members, staff and students.

While acknowledging valuable inputs received from the faculty members, staff and students, we also welcome suggestions from them to help us develop the newsletter further.

The First issue ,Volume 2 is in your hands.

Happy reading!!

Ms. Shivam Upadhyay

- Training Programs
- FDPs
- Conferences
- Technical Events
- Student Achievements
- Achievements of Faculty Members
- Training & Placement Cell
- Student Articles
- Interesting Facts

**Inside This
Issue!!**

Introduction to Newsletter

The aim of the newsletter is to keep each member of ECE family of JECRC connected and updated. Notable achievements of our students, alumni and faculty members will be highlighted along with some articles on latest technologies, and campus life. We wish that all who contribute to the growth and achievements of the department get acknowledged. We welcome your inputs for future newsletters and urge you to stay connected with us.

Industrial Visit

At

Genus Power Infrastructures Ltd., Ramchandrapura, Sitapura, Jaipur

Department of Electronics and Communication Engineering organized an industrial visit to Genus Power Infrastructures Ltd., Ramchandrapura, Sitapura, Jaipur on 15th Feb., 2018 for ECE second year students. The industrial visit is coordinated by Mr. Ashutosh Sharma and Mr. Ashish Sharma.

Attendees: 50 Students of ECE second year along with 2 Faculty Members.

Objective:

The objective of Industrial Visit is to make aware the students about concepts and working of latest digital and smart electricity meters such as multi-functional single phase and three phase, Pre-Payment Meters etc. They will also be made aware of technologies used in developing equipments for power projects such as Sub-Station erection , Laying up of transmission & distribution lines, Rural Electrification, Switchyard, Network Refurbishment etc.

About Genus:

Genus Power Infrastructures Limited, an ISO 9001 & 14001 certified company is an integral part of the US \$400 million Kailash Group. Genus has two business divisions offering highly innovative and sustainable solutions to the power sector. The Metering Solution Division provides a complete range of Electricity Meters such as Multi-Functional SinglePhase and Three Phase Meters, CT Operated Meters, ABT & Grid Meters, DT Meters, Pre-Payment Meters, SmartMeters, Net Meters, AMI, MDAS etc.

The Engineering Construction and Contracts Division undertakes Turnkey power projects such as Sub-Station erection upto 420kV, Laying up of transmission & distribution lines, Rural Electrification, Switchyard, Network Refurbishment etc. Equipped with avant-grade manufacturing facilities, complete forward and backward integration from plastic parts to final products, automated SMT lines, Lean Assembly techniques and a team of highly qualified and experienced engineers, Genus is committed to develop innovative and customized solution at an affordable price. Our top-notch R&D Center, recognised by the Ministry of Science and Technology, Govt. of India, has enabled the company to dominate the power infrastructure and be at the forefront of new technology.

Topics Covered in Lectures and Laboratories imparted by Genus Senior Engineers:

- Electricity- Residential, Commercial and Industrial
- Payment Solutions
- Distribution Transformers
- Calibration Equipments
- Smart Meters
- Smart City
- Renewable Energy Management
- Telecom Tower Management Solutions

Outcome:

- Student interacted with real application of Engineering especially in Smart Energy meters.
- Student learned about various Techniques of Power Generation and Distribution

Industrial Visit

At

Tesca Technologies Pvt. Ltd., Ramchandrapura, Sitapura, Jaipur

Department of Electronics and Communication Engineering organized an industrial visit to Tesca Technologies Pvt. Ltd., Ramchandrapura, Sitapura, Jaipur on 17th Jan. 2018 for ECE Third year students. The industrial visit is coordinated by Mr. Anil Jain and Mr. Veni madhav Sharma .

Attendees: 27 Students of ECE Third Year along with 2 Faculty Members.

Objective:

- To give an concepts and working of latest Analog and Digital Test, Measuring Equipments
- They will also be made aware of technologies used in developing Robotics
- To enhance awareness of the students on Power Electronics equipments and Power Supplies.

About TESCA:

Tesca Technologies Pvt. Ltd. is World's Leading ISO Certified Manufacturer & Exporter of Test, Measuring & Technical Education Equipment. We are Member for Electronics & Computer Software Export Promotion Council, New Delhi, India having sales in more than 60 Countries Worldwide. Tesca's operations are spread out in 23000 Square Feet encompassing more than 2000 manufactured Innovative Products and Turnkey Project Capabilities for International Tenders. Tesca is an Export House established in December 2009 with our Registered & Corporate Office both set up at Jaipur. We are actively doing business in Middle East, CIS, South East Asia, Africa as well as South America Countries. We do have our representatives in almost all Countries. Please be noted that we are doing projects meant for School Education, Vocational Training, Laboratory, Health Center, Hospital Equipment, Agricultural Modernization, Industrial Modernization, Rural Water Supply as well as Small Scale Enterprises funded by Ministry of Education, World Bank, Asian / African Development Bank as well as GOI LOC.

Topics Covered in Lectures and Laboratories imparted by TESCA Senior Engineers:

- Overview of electronic components and educational training kits of engineering
- Test and measurement of instruments
- Give information about AC/DC power supplies
- Fiber-Optic Communication Technology
- Give knowledge about microwave kits
- Antenna, satellite, GPS, RADAR, RF trainers
- Communication trainers
- PCB lab
- Job opportunities in electronics core companies

Visits to Live Systems:

- Visit to Electronics equipment trainer kit manufacturing lab
- Visit to PCB and transformer manufacturing section

Outcome:

- Single Sourcing Partner for all your Educational/Didactic Solutions.
- Student interacted with real application of Engineering especially in electronics Engineering

Industrial Tour [BHRAMAN]

At

TalentPull Chandigarh

Department of Electronics and Communication Engineering organized an industrial Tour BHRAMAN on 19th March to 25th March 2018 for ECE students. The industrial visit is coordinated by Ms. Aapurva Kaul, Mr. Ashish Sharma, Mr. Bhoopesh Kumawat , Ms. Preeti Barot, Ms. Shivam Upadhyay.

In this student visited **Talent Pull** and **Philips** Industries of Chandigarh.

Attendees: 51 Students of ECE department along with 5 Faculty Members.

Date: 19th March 2018 to 25th March 2018

Training Programs

From January 2018, ECE Department has organized the following training programs.

Training Program

On

Embedded System & Robotics

TechieNest Pvt. Ltd. were provided industrial training on the topic of Embedded System & Robotics to ECE students. This training module was completed in two slots with the duration of 90 hours each slots. The training was started from 22nd January 2018 (First slot) , 12th Feb 2018 (Second Slot). Total 56 students were successfully completed this training module. After this training, students will be evaluated based on theory and practical examinations certified by TechieNest, (An ISO 9001:2008 Certified Company).

Training Program

On

SakRobotix

- On January 19,2018, Department of Electronics & Communication had signed the MOU with SaKRobotix.
- Under this SakRobotix conducted 28 hours training from 19th January to 22th January 2018 on the topic of embedded and robotics . There were 66 participants.
- After completion of training students will get certificates from Sakrobotix startup and research centre incubation with IIT Guwahati in the field of robotics and embedded systems.

Conferences: International & National

“Recent Technological Developments in Electronics and Electrical Engineering-2018 (RTDEEE-2018)”

April 6-7, 2018

The 2nd International Conference “RTDEEE-2018” is organized with a vision to address the various issues to promote the creation of intelligent solutions in future. It is expected that researchers will bring new prospects for collaboration across disciplines and gain ideas facilitating novel concepts.

The theme of this conference will motivate the researchers to adopt the outcome for implementation. RTDEEE-2018 is a premier conference, organized by the Department of Electronics & Communication Engg. and the Department of Electrical Engineering during April 6-7, 2018 at JECRC

Conferences: International & National

Recent Advancements in Science and Technology"-2018 (RAST-2018)

March 27-28, 2018

- The National Conference “RAST-2018” is organized with a vision to address the various issues to promote the creation of intelligent solutions in future.
- In RAST-2018 students and research scholars were made aware about the recent trends in the field of electronics and electrical engineering.
- Students knew about the benefits of such conferences so that they may get an insight into the field of research which is an essential factor for the advancement of their career

FDPs: Faculty Development Program

ON

EMBEDDED SYSTEMS(ICT51) DURING

- Mr. Shyamsunder Manaktala successfully coordinate faculty development program on the topic of ‘Embedded Systems’ In association of NITTTR Chandigarh.

Objectives:

- The objective of the STC is to make the participants understanding the concepts of embedded systems.
- The hands on training using an industry standard tool will help the participant to learn the architecture of a processor.

Date: 19/03/18 to 23/03/18

Attendees:

- Mr. Shyam Sunder Manaktala
- Dr. Vinita Mathur
- Ms. Parul
- Mr. Rajesh Bhathija
- Ms. Neha Singh
- Mr. Rakesh Kardam
- Mr. Mangi Lal
- Mr. Sandeep Dotya
- Mr. Deepak Shankla
- Mr. Devesh Gupta
- Mr. Rajkumar Jain
- Mr. Atul Kulshrestha

जयपुर जैईसीआरसी और नेशनल टेक्नीकल टीचर्स ट्रेनिंग एंड रिसर्च की आर से सोमवार को एम्बेडेड सिस्टम पर पांच दिवसीय तकनीकी कार्यशाला की शुरुआत हुई। वर्चुअल वर्कशॉप का संचालन वेब कास्टिंग के जरिए किया गया। प्राचार्य डॉ. वी.के. चंदना ने शुरुआत की। वरिष्ठ शिक्षक लोकेश बंसल ने वैज्ञानिक दृष्टिकोण की बात कही। पांच दिवसीय वर्कशॉप में एम्बेडेड डिजाइन की उपयोगिता, आधुनिक परिवर्तन एवं आयामों के बारे में विस्तृत जानकारी दी जाएगी।

Technical Events

Renaissance 2018 year saw a boost of technical events with 12 events directly related to the branch. These events with captivating prizes witnessed an equally enthusiastic participation.

Quizolic

A technical quiz with 4 rounds of increasing difficulty.

Round 1 had 20 questions with minimum 40% needed to qualify round 2. In round 2, the quickest response to randomly drawn chits progressed to next round. Round 3 was the visual round in which pictures were displayed on the screen and final round was the Buzzer round in which the team that pressed the buzzer first was given chance to answer the question. The team which gave more answers was declared as the winner.

This highly competitive event had 60 teams in total. The judge, Mr. Siddharth Sir Techienest, **Ms. Kriti Manish Sharda** declared the team of winners.

Techinobuzz

It encouraged the students to not just think about new technologies but also how to present their ideas. Their ideas were beautifully presented on A-2 Sheets.

While round one judged their creativity and attractiveness of the poster round 2 judged their verbal presentation. Participants stated the applications and the Future aspects of the technology along with the challenges in it's development.

The final round was a rebuttal round in which the judge, **Mr. Rajesh Bhatija** cross-questioned each student. The event concluded with the Team of Raveena Sharma, Rohit Verma and Prachi Khandelwal, Rishabh Raj coming out as the winners.

Renovator

Renovator It has not only provided a great opportunity to the students of electronics stream to showcase their practical skills but also created a healthy competitive and learning environment. There was immensely enthusiastic participation in the event, that mainly revolved around the electronic circuits studied throughout the entire E&C course. It helped the students to gain practical knowledge by designing various circuits. This event taught students, various techniques and practices that are involved in the real-world application of the concepts and is a great opportunity for the ones who wish for a career in circuitry. Judgment was done by Professor **Mr Arun Chopra**, B.E., M.B.A., M.Tech., PhD (p), who has over 26 years of experience in Teaching, Training and Management.

Robowar

For all those who have passion in Robotics or Sports, RENAISSANCE'18 presents Robo-war. This competition is to show how long robot of yours can withstand in the arena fighting the other robot. Teams must build a manually controlled machine which can withstand the other robot in the arena. Two teams competed among themselves. This event with three rounds attracted a huge audience. During the event, many robots got destroyed.

ROBO SOCCER

For all those who have passion in Robotics or Sports, RENAISSANCE'18 presents robo-soccer. This competition is to show how good and swift robot of yours can be by playing soccer using it and scoring more goals. Two teams again competed with each other and each team had two robot cars, one Defender and one striker. In the first round, teams had to throw the balls of one's area into the others area using their bots. In the second round the defender robot had to defend the ball from entering the goal post and striker robot had to do the goals. The event was very interesting because of the enthusiasm and competitive spirit of the participants.

Line Follower

For all those who have passion in Robotics or Sports, RENAISSANCE'18 presents Line follower. This competition is to show how good and swift robot of yours can be by following a line using it and scoring more points. In this event, the compact infrared light robot was made to move on white strips on blackboards using detector. There were 5 checkpoints on the LFR track from which a team could skip maximum 2 checkpoints. The team which completed the track in the minimum time with maximum points was announced as the winner.

TECHNOPHILIA

This event is to develop research aptitude among engineering students. Future of education belongs to research. Students who want to pursue higher studies in india or abroad are very much inquisitive about developing research aptitude . Technophilia will provide them a solid platform to begin. The event was a blend of your technical and presentation skills. It was organised to test the research skills of students. In round 1 participants were provided with a research paper for which they had to write a titled abstract. In final round participants presented a power point presentation of 7 minutes on the same research paper given to them.

Student Coordinators

Game of Drones

Game of Drones

Build your Drone to travel from source to destination crossing various interruptions, hurdles, etc., along the path of journey. This is an open event for all (but should not be from any industry or a professional). In this event, participants were asked to build a drone to travel from source to destination by crossing various interruptions, hurdles, etc., along with the path of the journey. Various teams from different colleges came to participate in it.

Teacher coordinator

Mr. Siddharth Chaturvedi
Mr. Naresh Kumar
Mr. Ashish Sharma

Judges

Mr. Manoj Khandelwal

Mr. Rajat Vijay

Student Achievements

Xananoids

In this race of just coming first and not grasping any knowledge, Xananoids took its initial step in inculcating the knowledge among the students of the first year with the basic of robotics. The seminar took place in three sessions. It was great to see such overwhelming enthusiasm of the young buds. We wish that this zeal and curiosity learn more and more stays forever.

The members of the Xananoids club go to various technical fests in a different event. Recently the team took part in plinth tech fest of LNMIIT 18th – 19th January in the transporter and stood second in it. The team consist of Mithlesh (ECE) Rishabh (ECE) Harish (Mech) Gaurav (Mech) Jitendra (Mech) and Shubham (CSE).

Sports News

Football:

- Lakshita Sharma, third year student participates in Rajasthan senior state football tournament.
- Lakshita Sharma, third year student got selected in top 11 players of Rajasthan senior national football tournament .
- Lakshita Sharma, third year student was the winner of GIT college tournament (vanquish) .
- Lakshita Sharma, third year student was the winner of Rajasthan technical university tournament (RTU)

Congratulation To the Batch Toppers

We congratulate students for their achievements. We would also like to congratulate the program coordinators and faculty members to support the students for achieving their position.

III Semester (2017-2018)- Ms. Niharika

V Semester (2017-2018)- Ms. Somyaa

VII Semester (2017-2018)- Ms. Manmeet Kaur

Congratulations!

The roots of education are bitter but the fruit is sweet.

- Aristotle

Congratulation To GATE Qualified Students

GATE 2018 Qualifiers:

- Mahendra Godara (258 All India Rank)
- Surbhi Singh
- Kritika Singh
- Himanshu Bakoliya

* Cut off Marks in GATE 2018 were General 25; OBC 22 and SC/ST/PH 16

Congratulations

- ❖ Ms. Vinita Mathur was awarded by Doctorate degree in January 2018.
- ❖ Mr. Veni Madhav Sharma was awarded by the degree of Master of Technology in January 2018.
- ❖ Ms. Preeti Barot has received Gold medal for her Master's degree from Poornima Institute of technology Jaipur in February 2018.

Achievements of Faculty Members

FDPs

Teena Sharma attended an academy training program on “Advances in Communication Technology (AOT-2018) ” organized by Electronics & ICT Academy MNIT, Jaipur during 09/02/18 to 14/02/18.

Achievements of Faculty Members

Publications

Ms. Parul Tyagi has published a paper entitled, “Performance Analysis and Implementation of Proposed Mechanism for Detection and Prevention of Security Attacks in Routing Protocols of Vehicular Ad-hoc Network (VANET)” in Egyptian Informatics Journal-Elesvier international journal, ISSN:1110-8665, 18(2),2017.

Ms. Kriti Manish Sharda has presented a paper entitled, “WATER DISINFECTION USING NANOTECHNOLOGY FOR SAFER IRRIGATION” in a National conference on DIGITAL TECHNOLOGY ENABLING MODERNIZATION ON RURAL INDIA ,2017.

Training & Placement

The goal of the Training & Placement Cell of the ECE Department is to provide employment opportunities and world class training to students in leading organizations/Industry. The Training & Placement Cell further provides ample opportunities to the students to develop their personality by conducting programs regularly on communication skills and other soft skills. This Cell makes the students Industry-friendly and Industry ready candidates. Under the guidance of **Mr. Siddharth Chaturvedi**, a hard working team arranges training for students in Industries for two to four weeks at the end of the session.

Congratulation To Accenture

Placed Students

The Sixth Sense Technology

The sixth sense technology is a beginning of new era; An era where the need for hardware is minimized. This technology was developed by Steve Mann. It is a blend of many exquisite technologies which include hand gesture recognition, image capturing and manipulation. The sixth sense prototype is made using very common and easily available equipments like projectors, colored markers, camera etc. Being an easily accessible technology, it holds wide scope in future and opens gate for further development in this field.

Memristor

It is a microscopic component that can remember electrical states even when turned off. Memristor potents include applications in programmable logic signal processing neutral networks, control system, reconfigurable computing, brain computer interfaces and RFID. Memristive devices are potentially used for stateful logic implication, allowing a replacement for CMOS – based logic computation.

Spintronics

Spintronics investigates control and manipulation of the electron spin in metals and semiconductor applications using spin-polarized electrical injection have shown threshold current reduction and controllable circuit only polarized coherent light output. Examples include semiconductor laser. Future applications may include a spin based transistor having advantages over MOSFET DEVICES such as steeper sub-thresh hold slope.

Silver nano-particle: Transparency

Silver nano-particles are embedded in the transparent particles, these tiny particles can be tuned to scatter only certain wavelength. Visible light does not belong in this spectrum hence the scattering allows the projected image to be seen in much the same way as smoke in the air reveals the presence of laser beam passing through it. Which means that the glass remains transparent enough to see colors and shapes clearly through it while single color display is clearly visible on the glass.

Interesting Facts

1. **Black-market radio-** During World War II, the radios used by the forces were heavy and erratic, and not designed for jungle warfare. Kilby wanted to improve the situation and travelled to Kolkata, India, for a truckload of black-market radio parts. Soon, he succeeded in building smaller, more reliable radios for the troops. His invention of integrated circuit stems from this attitude, “If something does not meet your requirements, rebuild.”
2. **Monophobia** means NO-MOBILE-PHONE- PHOBIA.
3. If you put a lit match in your microwave and turn it on you can create a plasma ball or balled lightning.
4. There are fake Apple Stores in China. Some of them are so convincing, even the staff thinks they are working for Apple.
5. 95% of people feel uncomfortable if the TV volume is an odd number.
6. Hard Disk are so sensitive to vibration that even screaming at them diminishes their performance.
