7.PHONEIX

About: **"CASH THE ASH"**, In this event students have to develop a working model from the available components of a non working or discarded device according their innovative idea. Creating is not finding of a thing but making something out of it after it is found so get your mind work to create something innovative from the ASH.

Rules:

1. Participants will have to redesign and invent a working model from non-working projects or things not being utilized per their choice this may be their own (any non-working device at their home).
2. Participants will demonstrate their working model on the event day.
3. The teams are expected to make necessary arrangements for demonstration of the working model.
4. Judges may change and add the rule and guidelines on day of event.
5. The decision of the judges will be final.
